WE ARE POT O' GOLD

Founded in 1986, Pot O' Gold is a family owned and operated business based in Seattle. Everyone in the Pot O' Gold family has a deep love for the Pacific Northwest—the landscape, the culture, the ever-growing tech scene, and don't forget the coffee!

For the last 30 years, we've operated with one goal in mind: bring good coffee to the hardworking people of Seattle. We strive to do this every day with the least amount of friction for our customers, because it's hard to get down to business without your first cup! Call us old fashioned, but we like to know our customer's names, we like to talk on the phone, we like to get to know you. We keep our business personal, because it is.

Our awesome customers give us the opportunity to do what we love, so we show our appreciation with our service. We're flexible. We're fast. We're willing to go off-route to make sure you're taken care of. That's our way of saying thank you every day.

We invite you to explore this catalogue and read our story. If you're new to Pot O' Gold, check out the next page to get a lay of the land. And, of course, don't hesitate to say hello by calling 425 455-1020 or emailing us at: info@potogoldcoffee.com

KOMBUCHA

Kombucha is high in acetic acid, which has been shown to help control blood pressure, reduce fat accumulation, and remove calcium from the plaque that clogs arteries and causes heart disease. Kombucha is a powerful detoxifier, particularly for the kidneys.

Kombucha has high levels of beneficial probiotics and enzymes to aid digestion and increase immune function. Kombucha is made from tea, so it inherits all of the wonderful benefits of tea including B vitamins, antioxidants, and polyphenols.

COLD BREW COFFEE

Cold brew coffee is brewed by mixing coffee grounds with cold water and steeping for 12-24 hours. The bite of hot coffee can overshadow coffee's rich flavors, so the cold brewing process is ideal for extracting subtle aromatic notes that are unique to each roast.

When on tap, cold brew is often infused with Nitrogen to give it a smooth, frothy texture. Cold brew coffee is up to **60% less acidic than hot coffee**, but equally (if not more) delicious.
